

St Michaels's – Lyons, Illinois (Satin Surface)

Power washed and ready for Quick-Architectural Gold application

Due to vertical ribs, Quick-Architectural Gold application starts at top

Quick-Architectural Gold 6" wide strips being squeegeed into place following removal of the release liner which exposes the adhesive

Surface is wetted to ease the removal of the pre-mask, thus exposing the Quick-Architectural Gold

Protective paper removed...application complete

Cross and Dome completed
